Purnandu Jain
Chairman appointed for the Meeting

The Company began manufacturing formulations at its mother plant at Nani Daman way back in October, 1998.

With a view to avail concession Vaibhav Healthcare Private Limited an associate of ADPL envisaged in the Industrial Package announced by the Government of India in the Hilly States, set up a manufacturing facility in Village Manakpur [H.P.] which was merged into Ankur Drugs and Pharma Limited w.e.f 1st April, 2006.

Since the Company was recording steady growth, it planned to setup a state of art plant at Village Makhnu Majra [H.P.] involving a huge capital expenditure known as Unit II designed as per USFDA/MHRA specification / norms.

While the Company was completing the construction of this facility [Unit II], the Government of India, in July 2008, restricted the availability of the excise holiday to only those units which would be commissioned and had started production before March 2010. In order to avail this excise holiday, the Company had to go ahead and complete the construction and commissioning of its plant before stipulated deadline. In the process, due to absence of financial closure of the project, the Company had diverted a major part of its working capital for the completion of the Project. The diversion and the subsequent inability of the Company to tie up long term funds led to a liquidity crunch, leading to delays in repayment / retiring of dues to the working capital and term loan lenders.

Instead of funding the capex through term loan, the company utilized working capital and unsecured short term funds which were of a very high cost in nature. The company also approached the CDR Cell for restructuring of the debt and sanction of need based credit facilities. The Company received a package for restructuring the existing debt from CDR lenders aggregating ₹ 750 crores approximately but no new funding was made available, which had an adverse impact on the top line and bottom line of the Company.

The overall capacity utilization, at present is only at 10-15% of the installed capacity on account of shortage of working capital and financial uncertainty.

The approval of the scheme proposed by the Company by all stakeholders is paramount to the viability of the Company as the Company will be able to tie-up long term funds, once the scheme is approved which is so very essential for optimising capacity utilisation which would help in bringing the Company back to profitability.

The management of the Company believe that the Scheme of Arrangement would benefit the Secured Creditors, Unsecured and Other Creditors and also the Stakeholders.

3. FINANCIAL SETTLEMENT PROPOSED UNDER THE SCHEME OF ARRANGEMENT :

The Company is in the process of negotiating for the sale/long term lease of the Unit II at Himachal Pradesh. This will help to settle with the majority of the Secured lenders covered under the CDR scheme entered into with the institutions and with 2 WCTL Lenders sharing pari passu security with the CDR lenders.

It is proposed that all unpaid interest till date payable to all the Classes of Creditors shall be waived and any payment of future interest will commence from 12 months of the Effective date at the rate of 6% p.a.
